BULK TANK WEIGHT INDICATOR SYSTEM

FEATURES:

- Custom, colorful logos on 6" or 8.5" dial faces
- For a 2:1 load distribution, standard capacities up to 300,000
- For 3:1 load distribution, standard capacities up to 400,000
- Rotating dial display for easy tare adjustments
- Available in metric equivalents in Kg, DaN, tons, and metric tons

BENEFITS:

- Easy-to-read, full-faced dial
- Installs easily, no external power source needed
- Fluid-filled indicator reduces corrosion and vibrations
- Dampener adjusts to increase pointer sensitivity

User-friendly design can be serviced easily in the field by maintenance personnel

TO ORDER, SPECIFY:

- Capacity of indicator
- Ratio of tank
- Length of hose

Crown Oilfield Instrumentation's Bulk Tank Weight Indicator System provides accurate readings when weighing drilling mud, chemicals, and cement, whether on land or on an offshore rig. The system includes 6' or 8.5" bulk tank indicator with standard 25 ft. hose with either a compression or tension load cell.
