CRANE WEIGHT INDICATORS

FEATURES:

- Easy-to-read customizable dials in 6" or 8.6" gauges
- Available with piston-type or diaphragm-type load cells
- Comes with clevis and pins (pin range from 1.25" to 2")
- Can be mounted in or outside the cab
- Standard single load capacities up to 30,000lbs.
- Multi-scales for multiple parts line reeving

BENEFITS:

- Dependable system with easy-to-read dial
- Durable fluid-filled indicator resists corrosion, vibrations, and shock
- For added protection, tension cylinder includes fully-machined stainless steel piston rod, can be used in harsh saltwater environments
- Long service life with minimal maintenance
- Accurate readings assist with safe crane operation

TO ORDER, SPECIFY:

- Capacity and size of indicator
- Parts of crane line
- Hose length
- Size of pin hole
- Type of load cell

Designed to indicate crane load, Crown Oilfield Instrumentation's Crane Weight Systems can be used on pedestal, barge, locomotive, gantry, and derrick type cranes. From construction, to dockside or to offshore drilling, our crane weight indicators will help with safe crane operation practices.
