TO ORDER, SPECIFY:

- Dial capacity customization
- Number of lines strung
- Capacity of mast
- Length of hose
- Size of drilling line

For decades Crown's deflection type weight indicator has been a favorite for small drilling and workover rigs because of its versatility and compact size. Our weight indicators are equipped with 10 dials, making it easy to move from rig to rig, simply by changing the dial, drilling line size and number of lines strung. Each system comes with a gauge, diaphragm, hydraulic hose and a C-clamp, fitting in the steel case for convenient, compact storage and transportation.
